DETAILED DESCRIPTION OF THE SUBJECT OF THE ORDER

The subject of the order is the delivery of COMSOL software with CFD and Electrochemistry modules. COMSOL Multiphysics is a finite element analysis, solver and simulation software package for a variety of physics and engineering applications, in particular coupled phenomena and multiphysics.

The subject of the order may be a used item, free from any defects and damage, it may be previously used and may not be the subject of third party rights.

The software should be delivered together with the license key in electronic form (download) through the license administrator account in the manufacturer's database.

CPV classification code 48461000-7 Analytical or scientific software packages.

No.	Detailed specification	Quantity
1	COMSOL - Named Single User License (NSL) – Academics / perpetual license	1
2	CFD Module – NSL – Academics / 1 year license	1
3	Electrochemistry Module – NSL – Academics / 1 year license	1
